Importing requirements

NRCan import reporting requirements: the five data elements*

1. Name of the product (e.g. dishwasher)
2. Model number of the product (for motors, the model number or the unique motor identifier)
3. Brand name (if any)
4. Address of the dealer
5. Purpose of the importation

*The five data elements are not required for battery chargers, external power supplies, fluorescent lamp ballasts, electric motors and small electric motors incorporated into another product at time of import.
