Seed request information

If necessary, please attach a separate page providing the information below.

Species:

NTSC Number*

Number or weight of seed

Species:

NTSC Number*

Number or weight of seed

Species:
NTSC Number*
Number or weight of seed

Species:
NTSC Number*
Number or weight of seed

Species:
NTSC Number*
Number or weight of seed

* The seedlots and their NTSC numbers are available in the [CAFGRIS database](#).

An Import Permit may be required for seed requests from outside Canada. When the Import Permit is received, the Seed Centre will obtain a Phytosanitary Certificate which will accompany the shipment.

Seed Use Information

The Seed Centre is interested to know how you intend to use the seeds. If field trials are established, we would be interested in receiving summaries of future assessments. Thank you for providing us with this information.

Use of seed:

Field trial ___

Laboratory ___

Other (please specify) _____

Project description:

If this your first time requesting seed from the National Tree Seed Centre, how did you learn about us?

Website ___

Colleague ___

Other (please specify) _____

Please send your completed form by email, fax or post to:
